- Print Media: Newspapers and magazines proliferated, fostering national discourse.
- Radio and Film: Introduced in the early 20th century, these technologies revolutionized information dissemination.

Culturalist Approaches and the "Cultural Sphere"

One dominant strand in Japanese media theory emphasizes the importance of culture in shaping media consumption and interpretation:

- Culturalism posits that media messages are embedded within cultural codes, symbols, and social norms.

This perspective highlights the importance of interpersonal communication and social cohesion, key values in Japanese society.

Technological Determinism and Innovation in Media Theory

Japan's pioneering use of technology has also influenced media theory:

- The "Techno-Communication" paradigm examines how technological advancements (e.g., mobile phones, high-speed internet, AI) transform communication practices.

Notable Theoretical Contributions:

- Media Ecology: Analyzing how environments and technology shape communication, especially in the context of Japan's rapid technological adoption.
