Exam Day Tips and Strategic Approaches

- Read Questions Carefully

In the exam hall, allocate the first 10-15 minutes to reading through all questions. Highlight command words such as "calculate," "explain," "prepare," or "discuss," as these guide your

Divide your time based on the marks allocated and question complexity:

- Spend around 45-60 minutes per question
- Leave time at the end for review and checking

Tip: Tackle easier questions first to secure marks early and build confidence, then move on to more challenging ones.

- Show Working Clearly

Even if your final answer is correct, marks are awarded for the method. Show all calculations and workings step-by-step. This makes it easier for examiners to follow your logic and award partial marks.

- Use Financial Statements Effectively

Many questions require preparing or analyzing financial statements. When doing so:

- Start with the income statement, then the statement of financial position
- Ensure all adjustments are accounted for (depreciation, accruals, etc.)
- Use appropriate notes and disclosures as required

Common Pitfalls to Avoid in June 2014 F7

- Time Mismanagement: Spending too long on one question can jeopardize your ability to complete the entire paper.

Post-Exam Reflection and Continuous Improvement

After the exam, review your performance critically:
